

ITI Dutch Network Weekend Workshop, 7-9 September 2012

Dear Members

This year the Dutch Network Weekend Workshop will be held at Goldney Hall, Bristol University, in the south-west of England. We have secured a block booking for both ensuite rooms and rooms with shared facilities in the same complex of buildings, which also includes a Reading Room for our talks and workshops, as well as breakfast at the adjacent Clifton Hill House. This means that the price of the accommodation, and therefore the price of the overall weekend, is kept as low as possible. This is a great opportunity for us to network and enjoy a bustling city with an interesting history. Clifton, where Goldney Hall is situated, is a beautiful area renowned for the Clifton Suspension Bridge built by the legendary engineer Isambard Kingdom Brunel, also famous for that other Bristol landmark, the SS Great Britain.

Bristol Airport is easily reached from the Netherlands with Easyjet and KLM offering several flights a day, as well as from other parts of the UK. The main railway station, Bristol Temple Meads, connects with many parts of the British mainland. The Flyer bus, which runs between Bristol Airport and Bristol Temple Meads, leaves every 10-20 minutes. From Bristol Temple Meads there are buses into the centre and up to Clifton, as well as plenty of taxis.

Price TBA shortly so check back soon for details.

For those of you who would prefer to return home on Monday 10 September, you can stay on in Goldney Hall for an extra night for just £30 per room (room only) per person.

We hope very much to welcome you there!

The organisers, Kari Koonin and Aletta Stevens

ITI Dutch Network Weekend Workshop, 7-9 September 2012
Bristol University, UK
